Brand New Book ***** Print on Demand *****.Did you know, every woman has a tipped uterus, and ovarian cysts are usually normal (even when they burst)? Have you ever wondered: should I take hormones during menopause, is it okay not to have a monthly period or why does my yeast infection keep coming back? Have you worried about getting HPV or agonized over an abnormal pap smear? What exactly is a pap smear, anyway? In *Everyone Has a Tipped Uterus: 69 Things Your Gynecologist Wishes You Knew*, board-certified obstetrics and gynecology physician, Dr. Melissa Wolf, answers the questions most commonly asked in her gynecology office with both humor and medical expertise. She also reviews the Google diagnosis, the famous urban legend of birth control pills, and what to do when you encounter your gynecologist in public (hint: don't worry, she won't remember your vagina)! Dr. Wolf is a board-certified obstetrics and gynecology physician and holistic health coach who lives and works in Bozeman, Montana. She is also a professional speaker who entertains national audiences with presentations such as *Unwind Your Mind: Live Inspired*, *Boredom in the Bedroom: There Is No Female Viagra*, and *Menopause: Puberty in Reverse*. She runs a medical weight loss clinic and owns Red Letter Health, LLC, a company that empowers women through holistic health coaching to live healthy, vibrant, and inspired lives. In her free time, Dr. Wolf enjoys running marathons, participating in global service projects, and relaxing with her dogs.
