Reviews

*The ebook is simple in go through better to fully grasp. It is actually rally exciting throgh reading through period. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Alexander Jacobi)*

USER-FRIENDLY: USER FRIENDLY: WORKBOOK AND ASP TUTORIAL (MIXED MEDIA PRODUCT)

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 1994. Mixed media product. Book Condition: New. 277 x 216 mm. Language: English . Brand New Book. This workbook is to accompany Statistics: Concepts and Applications by H. Frank and S. Althoen. It provides tutorial and examples as well as a comprehensive guide to using the computer software package ASP (an IBM disk containing this program is enclosed in the book). Statistics: Concepts and Applications is a classical general statistics text written in modern voice. The authors bring mathematical, theoretical and conceptual integrity to a body of topics and techniques that is appropriate to a first course in statistics and do so in a way that is accessible to students whose mathematical preparation does not go beyond the standard curriculum for college algebra. The informal, conversational prose delivers conceptual richness and advances a quiet subtext of mathematics instruction that achieves a high level of mathematical rigour. The text presents a thorough, step-by-step development of fundamental principles.
