When the spaceship leaves, Jack is gone, and an unconscious young woman wearing his clothes has taken his place. Patricia and the young woman are transported to a military base, where it's discovered that this strange woman - who will be later known as Carolyn - is actually a female modification of Jack's molecular genetics and was created from an image in Jack's sub-conscious. The world is about to find out that a threat that could destroy Earth looms on the horizon, and Carolyn may be the only being who can stop the planet's destruction in Project Changeling.
